

Summary

Dynamic and motivated Python developer with foundational knowledge in Django web framework. Experienced in building basic web applications and APIs using Python and Django. Strong problem-solving skills and a strong interest in expanding expertise in web development.

Projects

Django: Hotel Management System

Python, Rest Framework, GIT

(<https://github.com/suwalkrizal/Hotel-Management-System>)

- Developed a comprehensive hotel management system using Python and Django framework to streamline operations and enhance guest experiences.
- Implemented features for room booking, guest check-in/check-out, billing and invoicing, staff management, and reporting.
- Received positive feedback from hotel management and staff for the system's usability and impact on daily operations.

Django: Inventory Management System

Python, Rest Framework, GIT

(<https://github.com/suwalkrizal/inventory-management->

- Implemented features for tracking inventory levels, managing stock, and processing orders.
- Developed a web-based inventory management system using Python and Django framework.
- Designed a user-friendly interface for easy navigation and efficient inventory management.

Education

- Bachelor in Computer Science and Information Technology (B.sc CSIT)
 - Kathmandu College of Technology (KCT)**2077 - ongoing**
(Lokhanthali)
- +2 Science
 - Khwopa Secondary School**2074-2077**
(Dekocha,BKT)
- Secondary Education Examination (SEE)
 - Everest English School**2073**
(Byasi,BKT)

Relevant Experiences

Django with Python

(Dec 2023 – Feb 2024)

- 3 months of training by Mindrisers Institute of Technology,

Skills

Soft Skills:

- Problem Solving
- Adaptability
- Communication
- Attention to Details
- Team Work

Technical Skills:

- Python with Django
- Html and CSS
- C/C++
- WordPress
- MS Word
